Lookout Threat Advisory

Your pass to cutting-edge mobile threat intelligence

Overview

In the fast-changing world of mobile security, keeping your finger on the pulse can be challenging. Lookout Threat Advisory taps into the world's largest mobile dataset fed by Lookout's global sensor network of millions of devices, pairing it with insight from Lookout security researchers who will give you actionable intelligence on the latest mobile threats and risks.

Offerings

Lookout Threat Advisory provides you with a continuous feed of threat intelligence updates and analyses, as well as access to the foremost mobile security researchers. With a variety of offerings, Threat Advisory goes beyond just reporting and provides benefits such as access to the threat data Lookout's own team of researchers leverages for threat hunting, which is informed by the world's largest mobile dataset. Lookout provides training for your internal team on hunting mobile threats, and deep-dive threat guidance reports when a large-scale mobile threat is discovered.

	Essential	Enterprise	Enterprise Premium	Enterprise Premium Plus
12 mobile threat intel reports/year	■	■	■	■
Indicators of Compromise (IOCs)	■	■	■	■

Mobile Threat Advisories		■	■	■
Monthly status call			■	■
100 hours of Virtual research/year			■	■
Application binaries and PCAPs				■
1 threat hunting workshop/year				■
Additional custom deliverables as agreed				■

Benefits

Smarter risk management

Know what threats are prevalent (and what threats are irrelevant) in the countries your organization operates, allowing you to make better informed security risk management decisions.

Get ahead of the attackers

With early visibility into mobile threat trends you can take steps to protect your organization before mobile attacks occur. Receive actionable information such as indicators of compromise that you can put into your current control environment to broaden your mobile security strategy.

Build stronger business cases

Use quantified risk data to demonstrate the relevance of mobile threats to your organization and help achieve buy-in and budget for mobile security initiatives across your organization.
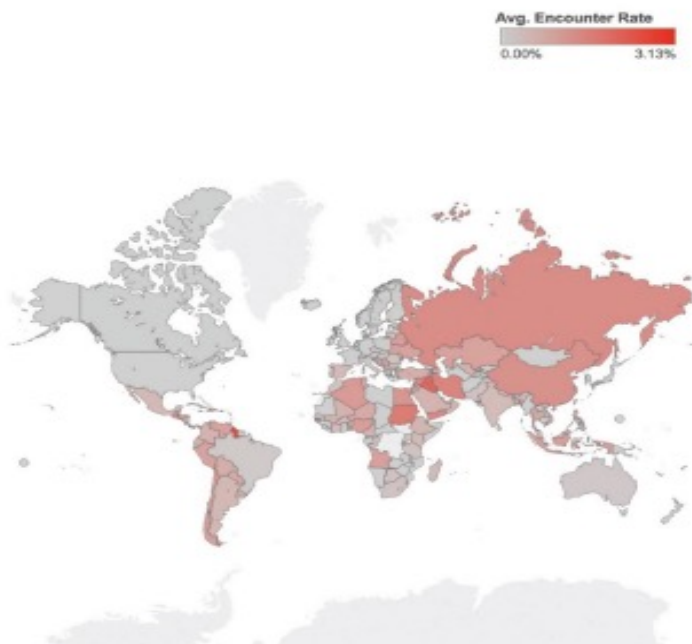

Secure mobile infrastructure

For mobile network operators and organizations responsible for the security of large populations of mobile users, Lookout Threat Advisory services offer critical, actionable insights that allow you to make better investments in protecting your mobile infrastructure.

Monthly global threat report

As part of Lookout Threat Advisory services, Lookout will provide our Monthly Global Threat Report. This details mobile threat encounter rates and the latest threat families, including heatmaps showing global threat prevalence by threat classification (see Figure 1).

Mobile threat encounters rates are sampled and rolledup on a weekly basis per classification, covering the following threat classifications:

- Adware
- Chargeware
- Backdoor
- Bot
- Exploit

- Root Enabler
- Riskware
- Spyware
- Surveillanceware
- Trojan

Avg. Encounter Rate

0.00%   3.13%

The Monthly Global Threat Report provides (where applicable) a list of indicators of compromise (IOCs) for covered threat families to help customers better identify and track specific patterns and communications within their own networks.

IOC contents include:

- Threat family name
- Most prevalent associated app hashes
- IPs/DNS names of identified C2 servers

- Communication protocol information
- URL paths
- SMS number communication

Why Lookout?

Lookout Mobile Endpoint Security ensures continuous security and compliance on every device, leveraging a large data set fed by more than 200 million devices, and the analysis of over 150 million mobile apps. Lookout empowers your organization to adopt secure mobility without compromising productivity by providing the visibility IT and security teams need. To learn how you can secure your mobile fleet today, contact us at sales@lookout.com.

About Lookout

Lookout, Inc. is the endpoint to cloud security company purpose-built for the intersection of enterprise and personal data. We safeguard data across devices, apps, networks and clouds through our unified, cloud-native security platform — a solution that's as fluid and flexible as the modern digital world. By giving organizations and individuals greater control over their data, we enable them to unleash its value and thrive. Lookout is trusted by enterprises of all sizes, government agencies and millions of consumers to protect sensitive data, enabling them to live, work and connect — freely and safely. To learn more about the Lookout Cloud Security Platform, visit www.lookout.com and follow Lookout on our blog, LinkedIn, and Twitter.
